Herbs to the Rescue for Cats

A GUIDE TO SAFE, EFFECTIVE HERBAL REMEDIES

Herbal Remedy
 Prepare a tea of small amounts: **rosehips** (1/2 tsp), **garlic** (1/4 tsp) per cup of boiling water. Cover and steep for 15 minutes then strain. Dose: 2 droppers full 2 times daily.

Shedding Helper
 Make a tea of **chamomile** and **marshmallow** by mixing 1/2 tsp of each herb to 1 cup boiling water. Cover and steep 15 minutes and cool slowly give eight 1/2 droppers full 3 times a day (optional if necessary). If the cat will tolerate it make a warm compress of **horsetail** tea and hold it over the flared area for as long as the cat will allow the treatment. **Help** can be given in tablet form by grinding it into a powder and adding to the food 1 time daily. Feed one fresh **egg yolk** (orange free) daily mixed into a meal. Also add 1/4 to 1/2 teaspoon finely chopped **parsley** and 1/2 teaspoon finely minced **garlic** to the morning and evening meals.

Acidophilus & Bismuth
 1-7 drops of **Calceola extract** mixed to 1/2 tsp of warm honey and 1/2 teaspoon warm water. Give the mixture about 25x/day.

Sliverage (intestinal worms)
 2-3 times daily.
